

HITACHI REVIEW

<http://www.hitachi.com/rev/>

Since its first publication in 1952, Hitachi Review has been introducing the world to Hitachi technology from a diverse range of fields. Starting from Vol. 47, No. 2 (April 1998), the publication changed to a web-based format for the full magazine. The articles are written by specialists in each field and you can find articles of interest by using the search function or by browsing the Archive and Sector pages.

Around July of each year, a special issue of Hitachi Review called Hitachi Technology is published which is also available in a print edition. Each edition of the magazine contains articles on many different Hitachi technologies.
